

TURN SEQUENCE

Your Job Each Turn

1.

Trade Income — calculate & distribute (below).

2.

Bandit Mechanics — grow, convert, act, spawn.

3.

Break ties — Council vote, Bandit targets, anything unresolved.

Passing the Host

Pass the Host token clockwise after your Rest Phase. No Host in Spring — no Bandits, Trade Income, or Council; Spring grants +1 Envoy instead.

Quick Tie-Breakers

Situation	Resolution
Council vote tied	Host votes
Bandit equal targets	Host chooses
Tied for 'highest X'	Host chooses
Spawn ambiguous	Rules, else Host

Trade Income

WHO

Both border each other, both have active Dirt Roads (or an exception), and a signed Trade Agreement.

INCOME

Per Trade Agreement, BOTH gain 100 × the Host's Craft X.

WHEN IT FLOWS

•

Just signed: the player who did NOT sign gets income next time they Host; both flow after.

•

Just ended: the ender gets income next Host turn, then it stops.

•

No income in Spring. Tax collected in Winter.

Bandit Phase Order

1.

Grow existing Bandit Camps (table →).

2.

Convert any Camp at 25+ retinues into a Bandit Army.

3.

Act — each Camp/Army of 10+ performs a Cunning Action (d3); each Army performs a Move.

4.

Each Spring, every player gains a Bandit Camp. When a Bandit Camp is spawned in Spring, it immediately performs a Raze action at a base influence of 1 targetting the closest settlement.

Key Bandit Values

Key value	Current
Camp start	5 retinues
Becomes Army	25+ retinues
Cunning trigger	10+ retinues
Domain Value	+2 Cunning & +2 Prowess / 5 retinues

Cunning Actions

CUNNING ACTION — 10+ RETINUES (D3)

•

1 — Intercept Caravan

•

2 — Raze

•

3 — Destabilize

All players Abstain Bandit actions; innate modifiers can still apply and may Fail.

Bandit Army & Attacking

After bandit mechanics, a Bandit Army performs a Move: Skirmish (player army in range) > Lay Siege (player settlement in range) > March (toward closest army/settlement). Host breaks range ties.

ATTACKING A CAMP

Move to end adjacent to a camp; another player rolls bandit tactics (d6, 7 = Fall Back) and resolves to-strike/save as a Battle. Bandits never Fall Back but may Flee. Extort the camp's gold if destroyed.

Growth & Armament by Era

Era	Growth	Armament
Founding	+1	Cudgels + Cloth
Ascension	+2	Arming Swords + Kite Shields + Leather
Eminence	+5	Halberds + Chainmail
Zenith	+10	Battle Axes + Full Plate

New Camps start at 5; grow each turn but never exceed 25 (a Camp becomes an Army at 25). Growth is retinues/turn.
