Domain Standing Effects

| Domain   | Rising (3)                                                                                                                                                                                         | Established (6)                                                                                                                                                                                                                                          | Sovereign (10)                                                                                                                                                                                                         |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Industry | <b>Trade Secrets:</b> Perform endorsed Pursuit.                                                                                                                                                    | <b>Grand Architect:</b> May have an additional City. Perform endorsed Charter.                                                                                                                                                                           | <b>Titan of Industry:</b> Your capital may be chartered to a Metropolis. Perform endorsed Charter.                                                                                                                     |
| Prowess  | <b>Indomitable:</b> Once per turn, if you have not sent a Personal Envoy, you may instead perform a Prowess action; send 1 fewer Envoy this turn (min 0). In addition, may use Declare War action. | <b>Edict of War:</b> May have an additional Army. Perform a Muster Action. All armies gain Parry.                                                                                                                                                        | <b>High Quartermaster:</b> Upkeep -2000. May change equipment on your armies during any upkeep phase where that army is within Province. No longer lose Influence while at War.                                        |
| Cunning  | <b>Clandestine Councilor:</b> Twice per Envoy Phase, during a vote on an Envoy, target a player - that player Abstains that Envoy.                                                                 | <b>Grand Vizier:</b> Players may not target you with Cunning Envoys if your Cunning value is higher. When you perform a Skirmish action, your opponent gains Blunder in the first Skirmish of that Battle.<br><b>Foes gain Blunder in first Skirmish</b> | <b>Master Conspirator:</b> Once per turn, if your non-Cunning Envoy passes or is Endorsed, you may instead perform a Cunning action. In Battle, your opponent gains Strained each Skirmish.<br><b>Foes gain Strain</b> |
| Piety    | <b>Divine Mandate:</b> Faith +1 each Empire Phase.                                                                                                                                                 | <b>One True Gospel:</b> Each Empire Phase, all other non-allied players with a lower Piety value gain Doubt +2.<br><b>+1 Morale</b>                                                                                                                      | <b>Pillar of Faith:</b> If your Public Order would be set below 3, set it to 3. In addition, may use the Crusade action.                                                                                               |

Era Standing

| Era       | Renown | Armies | Cities | Max Set | Infl | Unlocks                      |
|-----------|--------|--------|--------|---------|------|------------------------------|
| Founding  | 1      | 1      | 0      | 3       | 1    | —                            |
| Ascension | 8      | 2      | 1      | 4       | 2    | May resolve Charter Cities   |
| Eminence  | 18     | 3      | 2      | 5       | 3    | May form Military Alliances  |
| Zenith    | 30     | 4      | 3      | 6       | 4    | May form Defensive Alliances |

Envoys & Diplomacy

| Era       | Envoys                                           | Diplo Infl |
|-----------|--------------------------------------------------|------------|
| Founding  | 1 Council + 1 Personal Envoy per turn            | +1         |
| Ascension | Council Envoys perform 2 actions of that domain  | +2         |
| Eminence  | Personal Envoys perform 2 actions of that domain | +3         |
| Zenith    | Send 2 Personal Envoys per turn                  | +4         |
