Renown v0.4.9 — the Skirmish sequence & rolls

## THE SKIRMISH

- 1 Form the Line**  
Up to 10 front line (1 Strike die each) + up to 5 reserve. Refill between Skirmishes.
- 2 Choose Tactics**  
Both pick a Tactic in secret, reveal together. Fall Back can't be chosen in Skirmish 1. (See Tactic Matrix.)
- 3 Declare Equipment**  
Attacker declares first; Defender responds.
- 4 Initiative**  
Range -2 to +2 (Ministry: +3). Higher Strikes first. At -2- you Blunder (Strike only on natural 6).
- 5 Roll to Strike**  
D6 per front-line retinue  $\geq$  to-Strike: Levy 4+, Man-at-Arms 3+, Sergeant 2+, KT 3+. Natural 6  $\rightarrow$  Cleave / Deadly / Destroy Shield.
- 6 Strike & Defend**  
Per Strike, defender resolves in order: Parry  $\rightarrow$  Save  $\rightarrow$  Recover. Unsavd = casualty (leaves field at once).
- 7 Panic Check**  
If a side took 5+ casualties this Skirmish, before it Strikes back: roll Morale ( $\leq 5$  dice). Immune Panic auto-passes. 7+  $\rightarrow$  Rout.
- 8 Strike Back**  
The other side Strikes the same way, if able.
- 9 Lose Endurance**  
Each side that fought: -1 Endurance. At 0 Endurance  $\rightarrow$  Fatigued.
- 10 Break Check**  
Each Fatigued field, before its token: roll Morale ( $\leq 5$  dice). Unbreakable auto-passes. Never triggers Panic. 7+  $\rightarrow$  Rout.
- 11 Fatigue Token**  
Each Fatigued side gains a token: -1 to Strike, Parry, Recover, Morale (rolls cap 6+; Morale uncapped). Tokens stack.
- 12 End the Skirmish**  
Battle ends if a side is wiped, Routs (Morale 7+), or Falls Back. Else refill and repeat.

## Retinues

| Type           | Strk | End | Mor | Cost |
|----------------|------|-----|-----|------|
| Levy           | 4+   | 3   | 5+  | 1000 |
| Man-at-Arms    | 3+   | 4   | 5+  | 2000 |
| Sergeant       | 2+   | 3   | 4+  | 2500 |
| Knight Templar | 3+   | 3   | 3+  | 3000 |

## Defense Sequence (per Strike)

| Step      | Roll                                                                                                     |
|-----------|----------------------------------------------------------------------------------------------------------|
| 1 Parry   | D6 $\geq$ 5+ cancels; nat 6 = Riposte. -1 vs Deflect / Unstoppable / per Fatigue. No Riposte vs Deflect. |
| 2 Save    | D6 + weapon AP + shield bonus $\geq$ armor value.                                                        |
| 3 Recover | After failed Save: D6 $\geq$ Recover value. Worsened by Fatigue & Serrated.                              |

## On a Natural 6

| Keyword        | Effect                                                                          |
|----------------|---------------------------------------------------------------------------------|
| Deadly         | On Strike: AP -5; can only be Parried or Recovered on a natural 6.              |
| Cleave         | On Strike: roll one extra Strike die at your modified value (can chain).        |
| Destroy Shield | On Strike: target loses Shield for the rest of the Battle.                      |
| Poison         | A natural 6 to Save against this retinue's Strikes fails.                       |
| Riposte        | A natural 6 on a Parry (melee): striker immediately takes a Strike back.        |
| Tempered       | Your Save can't be reduced past 6+: a natural 6 always saves, regardless of AP. |

## Standing Combat Effects

| Standing            | Effect                              |
|---------------------|-------------------------------------|
| Prowess Established | Parry                               |
| Piety Established   | +1 Morale                           |
| Cunning Established | Foes gain Blunder in first Skirmish |
| Cunning Sovereign   | Foes gain Strain                    |

## The 6+ Ceiling

| Rule                                        | Effect                                                                                                                                |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Blunder (Init -2 or lower)                  | Your to-Strike is set to 6+ (hit only on a natural 6), before other negative modifiers.                                               |
| Capped at 6+                                | Fatigue -1 to to-Strike, Parry, and Recover; Tempered keeps the Save at 6+ vs any AP. A natural 6 always has a chance.                |
| Pushes past 6+ $\rightarrow$ 7+ (auto-miss) | Shield -1 to Strike (Scutum/Tower/Heater) and enemy tactic to-Strike penalties apply AFTER the cap — they can raise the target to 7+. |
| Uncapped $\rightarrow$ Rout                 | Fatigue's -1 to Morale is NOT capped. At modified Morale 7+ the army Routs.                                                           |

## Keywords

- Deadly** On a natural 6 to Strike, increase the AP by -5. Can only be Parried or Recovered on a natural 6.
- Cleave** On a natural 6 to Strike, you may roll an additional Strike die at your modified Strike value.
- Destroy Shield** On a natural 6 to Strike, target loses Shield attributes for the rest of the Battle.
- Poison** A natural 6 to Save against this Retinue's Strikes fails.
- Unstoppable** Negate target shield's -1 to Strike, and impose -1 to Parry on the target.
- Parry** Roll a d6 to cancel a Strike before the Save on a 5+ (a natural 6 is a Riposte). -1 versus Unstoppable, versus ranged, and per Fatigue token (to a maximum of 6+).
- Riposte** If you roll a natural 6 on a Parry from a Melee Weapon's Strike, you Riposte: your opponent immediately takes a Strike from your equipped weapon. You can Riposte a Riposte.
- Recover** If a to-Save roll fails, roll a d6: a result of X+ saves the retinue. Worsened by Fatigue and Serrated, to a maximum of 6+.
- Serrated** -2 to Recover against this weapon's Strikes (worsens the defender's Recover roll by 2).
- Tempered** Your armor Save cannot be reduced beyond a 6+.
- Deflect** -1 to Parry and Negate Riposte against this weapon's Strikes. (All Ranged weapons have Deflect.)
- Steady** Initiative cannot be reduced by Tactics.
- Unwieldy** Initiative cannot be improved by Tactics.
- Blunder** At Initiative -2 or lower, your to-Strike is set to 6+, before other negative modifiers.
- One Shot** May only be Equipped in the first Skirmish of a Battle. Requires a Tiltyard.
- Immune Panic** Automatically passes Panic checks.
- Unbreakable** Immune Break: does not take Break checks while Fatigued.
- Fatigue Token** Each token is -1 to your Strike, Parry, and Recover rolls, to a maximum of 6+; and Morale -1 (uncapped). If your modified Morale is ever 7+, your army Routs. Tokens stack.
- Shielded** A stacking -1 penalty to the Strike roll (to a maximum of 6+). Sources: a shield's -1 to Strike (ignored by Unstoppable unless the shield has Negate Unstoppable), some Tactics (the Ministry innate is immune to the Tactic source), and each Fatigue token.
- 2H** Cannot use a Shield.
- Immune Unstoppable** Cancels the attacker's Parry from Unstoppable: this shield's -1 to Strike still applies, and the attacker's -1 to Parry does not.
- Negate Tempered** Ignores Tempered: this weapon's AP can reduce the target's Save past 6+ (to
